A LOOK INSPIRED BY THE DORADO FISH. METALLIC LOOK SHIMMER PLASTER WITH A TEXTURED FINISH. WATER-BASED & ENVIRONMENTALLY FRIENDLY.

If you take a road trip through Namibia, you'll see mica rock formations that are so shiny you'll be reaching for your sunglasses. There's also the metallic look of the Dorado fish, which is even shinier if you go snorkeling and see it under water. The idea of earthy metallics seems natural. In Africa there are examples of it everywhere.
