An economical, textured exterior coating in two grades, ideal for concealing fine hairline cracks. This paint is an excellent catch-all solution. Where hairline cracks and other plaster imperfections need fixing, the following specification offers an economical alternative to replastering: two coats Midamite Coarse, over-coated with a quality acrylic such as Midalux 240 Envirolite.

## ENVIROLITE MIDAMITE

- Available in Fine and Coarse textures
- Brush or roller applied
- Exteriors only
- Covers fine hairline cracks & minor surface imperfections
- Midamite Coarse should be overcoated with Midalux 240 to reduce dirt retention
- Fine: can be tinted in all Midas 300 colours

MIDAMITE FINE

MIDAMITE COARSE
